#### Friendly partner on the move

The technology beneath the screen reveals the mystery of an innovative interface to EVOX. It consists of the **FUN** interface (Friendly User Navigation), as opposed to the conventional PC applications, which are more document-centric, and office-bound. On top of that, it comes with cutting-edge communication device that prepares you to conduct video-conference with friends and loved ones. With EVOX, everything is just a click away!

#### Attention grabbing design

For the stylish, spirited you, there can only be EVOX. No other digital wonder turns heads as much as EVOX. Its small, sleek, 6.5-inch body fits in anywhere perfectly, at any time. Be prepared when you go around with EVOX as it will create a strong visual impression. Face the envy eyes with pride and attitude!

#### Extreme flexibility for travelers

Being the smallest full featured PC, EVOX targets mobile enterprise professionals. It is at least 2 times lighter than any other laptops. That explains why this digital friend is ever ready to travel around the globe with you! Its great storage space takes care of your vast collections of photos, music, games, and movies, so no worries about going around without any entertainment options.

#### Awesome features to spice up your life

EVOX is your desired digital partner that meets all of your needs. It gives lifestyle quality and an identity. EVOX helps you to remove layers of commitments in life by synchronizing your large array of inputs according to your personalized information, filtering off the unnecessary, and alerting you when you most need to be. With EVOX, you are able to manage **LESS** and explore **MORE** in life!
